

Introducing
a safe and
economical
method of flying
insect control

The **FLY**Light jr

Expose the glue trap, plug it in, and trap flying insects such as common flies, cluster flies, yellow jackets, and many other species of nuisance pests. This light is most attractive to the widest range of phototropic (light sensitive) flying insects, trapping them on the glue strip upon entering the **FlyLight jr** or **FlyLight compact** unit. Excellent for use as an IMP monitoring unit.

It's simple,
it's silent...
it works!

The **FLY**Light compact

EFFECTIVE | DISCREET | CLEAN | QUIET | CONTINUOUS

The **FLYLight jr**

DIMENSIONS

Width	21 in / 52.1 cm
Height	7.75 in / 19.7 cm
Depth	5 in / 12.7 cm
Shipping Weight	9 lbs / 4.1 kg
Net Weight	8 lbs / 3.6 kg

Attractive, suitable for use in sensitive areas and CSA approved

- Quick release glue board holder permits discreet glue board replacement. The hidden glueboard doesn't display captured dead flies and the non-toxic U.V stabilized adhesive glueboard is safe around people and pets.
- The unit can be wall or table mounted.

Chartreuse coloured glue board with pheromones attracts flies

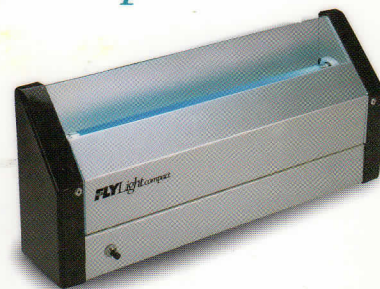

- The "U" shaped glue board with comfort zone encourages fly retention and resists dust giving the glue board a longer life.
- Convenient replacement glue trap strips last up to 30 days.
- Anodized aluminum diffuser back plate intensifies attractant power of the ultraviolet lamps.

Efficient lamp ballast, provides reliable quick start

- The new FlyLight Jr. does not require a starter button, it comes equipped with a high efficiency ballast that drives both lamps at full 25-watt output. No high or low volt electric grid system to maintain.
- The new FlyLight Jr. is more efficient, easier to clean and simple to maintain
- 1 year limited warranty on all electrical parts (except lamps and glue boards).

The **FLYLight compact**

DIMENSIONS

Width	14 in / 35.6 cm
Height	6 in / 15.2 cm
Depth	3.5 in / 8.9 cm
Shipping Weight	3 lbs / 1.3 kg
Net Weight	2 lbs / 0.9 kg
