

Introducing a safe and economical method of flying insect control.

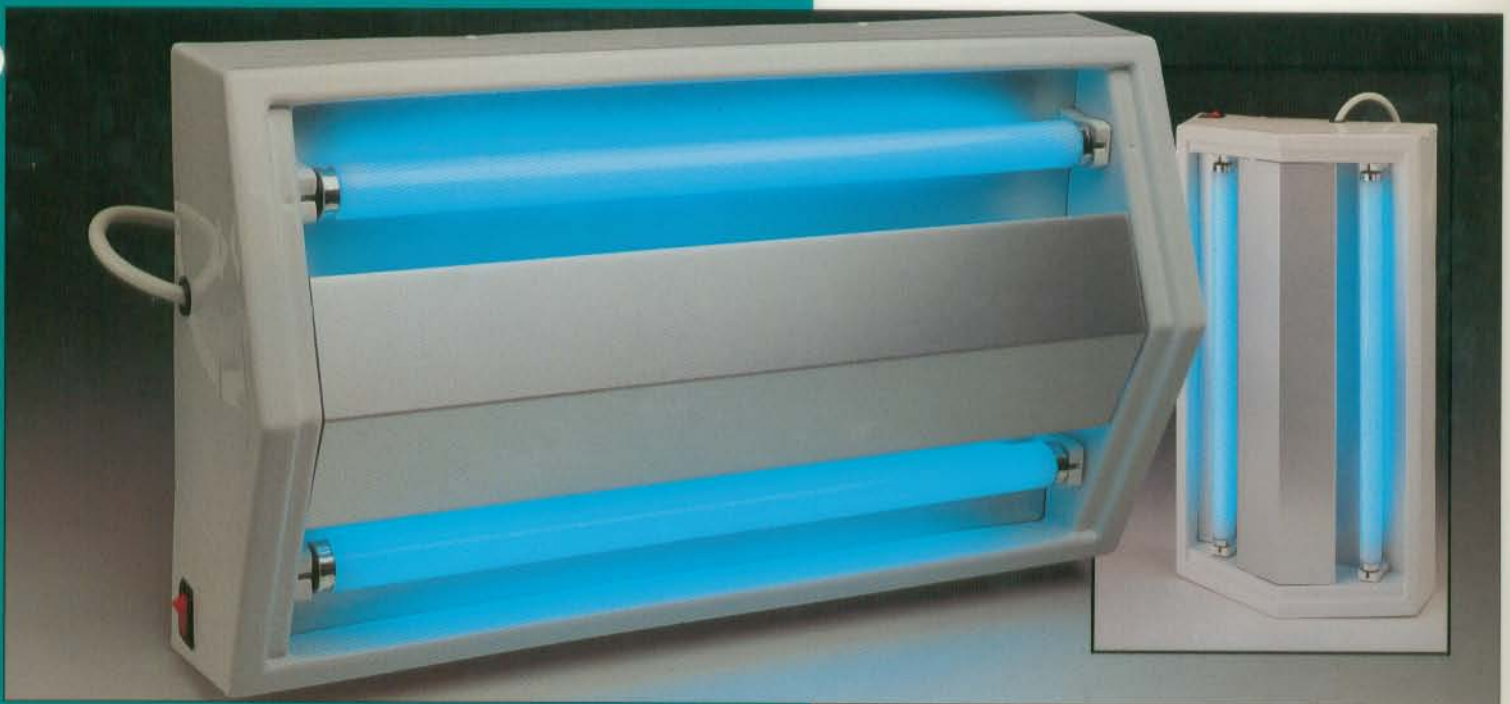

How it works:

Expose the glue trap, plug it in, turn it on, and trap flies. The 50-watts of bright ultraviolet light attracts light sensitive flying insects. The flying insects are trapped by the glue strip on entering the fly light.

Features:

- White modified acrylic housing
- Two 25-watt ultraviolet lamps
- Dust proof shielded glue trap
- No unsightly dead flies
- Easy servicing and cleaning
- Convenient "on-off" switch
- Retractable 8-foot power cord
- Convenient replacement glue trap strips last up to 30 days
- **3-way Use:**
horizontally, vertically or portable
- **Size:** 53.3 cm x 30.5 cm x 12.7 cm / 21" x 12" x 5"
- **Weight:** 4.1 kg / 9 lb
- **CSA Approved**

The Fly Light has no secondary high or low voltage systems to maintain.

The FLY Light

It's simple, it's silent... it works!
